Here is my suggested revised agenda – any comments before I send back to MDNR? Their proposed one is at the bottom:

Ex. 7(a)

4. IB and NCC Updates

- a. Status/Update
- b. Sediment sampling
- c. AAA Trailer Sampling
- d. Cover Performance Measurables
- e. Next Steps

Thank you,

Lynn M. Juett

Hi Aaron – Thanks for the voicemail and email. I look forward to receiving something in the morning hopefully, even if it is very rough, then we can build upon it maybe?

Thank you,

Lynn M. Juett

Lynn – left a voice message for you. I was out yesterday, as was Chris and Branden. We should have something for you by tomorrow. Agree with Chris W.'s feedback below, so permit status should definitely be an agenda topic, as should enforcement actions.

Subject: RE: Friday Storm Water Meeting

My staff can cover the status of the permit renewal which shouldn't take much time since we are not very far in the process. Additionally we will assist with the ARAR discussion as it pertains to

applicable water requirements. My group does not handle enforcement however I have cc my enforcement counterpart Paul Dickerson on this response.

Thanks,

Chris Wieberg

Hello Gentlemen – I sent a message to Aaron yesterday but haven't heard anything from him. I am assuming he is out of the office or too busy or has delegated this ☺

Is there anyone there that can work with me on a draft agenda for Friday's meeting?

Thank you,

Lynn M. Juett

Hi Aaron – can you help me pull together an agenda for our meeting on Friday? What major topics do you want to cover and what are the desired outcomes from your perspective?

I can guess we want to cover Stormwater ARARs at OU1 as well permit renewal status/process. Do you also want a discussion of any recent permit violations?

Thank you,

Lynn M. Juett
